What to Do

... and What Not to Do

DOORS

What to Do

- Repair rather than replace historic doors.
- If the door must be replaced, choose one that is similar in material, style, and size as the original. Avoid new doors with a leaded glass insert, commonly found at home improvement stores.
- Retain the door's original hardware; door hardware is not only functional but also significant in defining the character of the historic door.
- Avoid obscuring historic doors with inappropriate gates or screens.
